PROFILE SUMMARY

Motivated Computer Science student aiming to build a career in AI and Software Developing. Possesses a strong grasp of programming fundamentals, problem-solving, and full-stack development. Adept in Python, Java, JavaScript, and Flutter, with hands-on experience building AI-driven applications, supporting QA and security-focused workflows, and integrating APIs and databases. Known for adaptability, teamwork, and a results-oriented approach to tackling complex engineering challenges.

SKILLS

- Languages: Python, Java, JavaScript, C
- AI & Cybersecurity: NLP-based evaluation systems, API security fundamentals
- Web Development: HTML5, CSS3, Tailwind CSS, React.js (Vite), Node.js, Express.js
- Database: MySQL, MongoDB, Firebase
- Tools & Platforms:GitHub, VS Code, Android Studio, Postman,Antigravity IDE
- UI/UX:Figma,Canva

INTERNSHIP

Web Developer Intern, Terabyte Innovations Pvt. Ltd.

May 2025 – Jul 2025

- **Developed** AI-driven automation features to enhance web application functionality and workflow efficiency
- **Implemented** and **tested** responsive UI components to ensure seamless user experience across web interfaces.
- **Executed** quality assurance and debugging processes to identify and resolve application issues.
- **Maintained** technical documentation, development records, and system logs to support efficient project management.
- **Collaborated** with database and API teams to **integrate** scalable and secure web modules.
- **Optimized** backend APIs and database queries to improve application performance, responsiveness, and reliability.

PROJECTS

Resume Analyzer with Job Description | Python, NLP

August -2024

- Designed and developed an AI-driven resume evaluation system to analyze ATS compatibility.
- Implemented NLP techniques to score resumes based on job relevance and keyword matching.
- Generated automated improvement suggestions to enhance candidate profile quality.
- Improved resume screening efficiency and accuracy for recruitment workflows.
- Integrated skill extraction and job-description matching to identify missing skills and relevant qualifications.
- Developed an automated scoring mechanism to provide actionable feedback and improve overall resume performance.

Palika Connect | Next.js, TypeScript,PostgreSQL

January- 2025

- Built a full-stack municipal complaint management platform for citizen issue reporting.
- Enabled real-time complaint assignment and resolution tracking for staff members.
- Integrated photo upload functionality to support evidence-based issue reporting.
- Developed a secure and responsive interface, improving civic engagement and service efficiency.
- Implemented role-based authentication and access control for citizens, staff, and administrators to ensure secure complaint management.
- Built an interactive dashboard to monitor complaint status, priority, assignments, and resolution progress for efficient municipal operations

ACHIEVEMENTS & CERTIFICATION

- ByteRunners Hackathon at IIT Delhi's Tryst 2025
- 0 to 1 Hackathon at IIIT Delhi
- Python with Django – Cigno Technology
- Java Foundation – Oracle Academy
- Flutter – MyGreatLearning
- HackerRank Software Engineer Test – HackerRank
- Be Practical-Gen AI And Data Science

EDUCATION

Bachelor of Technology – Computer Science & Engineering CGPA - 8.4/10

2023 – Present

Sharda University, Greater Noida

100% Government Scholarship – EdCIL (India) Ltd., Government of India
